

How To: Receive Your Ethax Tokens In A Binance Wallet

The Process Takes 1-2 Minutes

Welcome To ETHAX

ETHAX will deliver your ETHAX Tokens into a unique, secure digital wallet.
If you are new to crypto, here is your simple guide to creating your very own wallet.

About ETHAX Tokens

ETHAX aims to demystify the world of crypto currency, and to open up this sector to all consumers. In April 2021, the cryptocurrency market topped \$2 trillion in value for the first time. The sector is booming and ETHAX believes that no one should miss out on the opportunity at hand simply because the process is new to you.

To buy cryptocurrency including ETHAX tokens, you need to buy and sell via an 'exchange'. This means you need to create an exchange account and store the cryptocurrency in your digital 'wallet'. In order to purchase ETHAX tokens you will need to create your own unique digital wallet.

If you are purchasing ETHAX Tokens directly then you still need a wallet.

It is the same process as opening a bank account or a share dealing account except your wallet is an extension which sits in your browser permanently or for as long as you want it.

This 'How To' manual will guide you through the process of creating a secure wallet with ease.

ETHAX Tokens are digital currency, which can be traded with bitcoin, ethereum, bnb, usdt or usdc in order to cash out into dollars.

Your capital is at risk.

Step 1

Open Your Web Browser

You Must Use Either Chrome or Firefox

Google Chrome

Mozilla Firefox

Step 2

Find & Download A Binance Wallet

This is a 3rd party world-leading device and it allows you to store digital currency securely.
Firstly, Type into your search bar **"Binance Chain Wallet"**...

A screenshot of a Firefox browser window showing a Google search results page. The search query "binance chain wallet" is typed into the search bar, which is highlighted with a red oval. The results page shows several links related to Binance wallets, including "Wallet Direct - Binance" and "How to Set Up and Use Trust Wallet for Binance Smart Chain ...". Below the search bar, there's a "People also ask" section with expandable questions like "How do I get a Binance chain wallet?", "What is Binance smart chain wallet?", "What wallet does Binance use?", and "Are Binance chains safe?". At the bottom of the page, there's a message about Firefox being up-to-date and a link to refresh the browser.

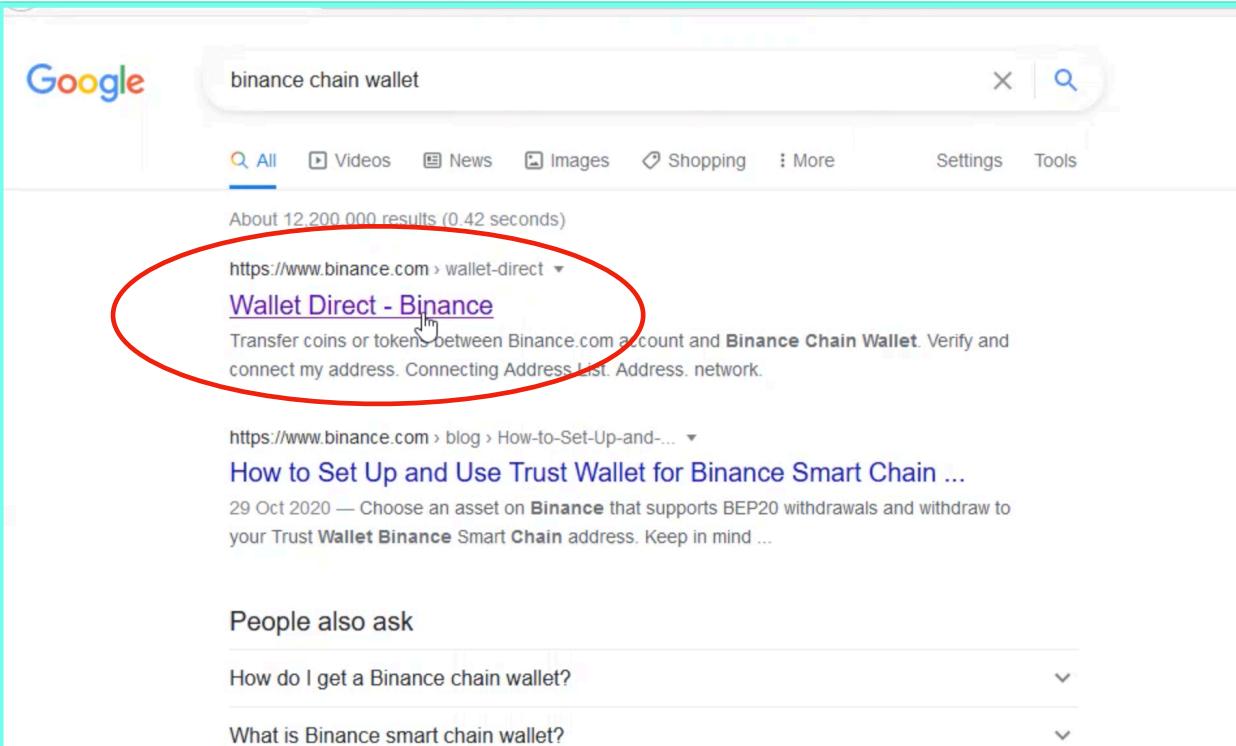

Step 3

Look For 'Binance.Com' With 'Wallet Direct - Binance'

This is normally the top result.

Now, click on "**Wallet Direct - Binance**".

A screenshot of a Google search results page. The search query in the bar is "binance chain wallet". The results show approximately 12,200,000 results. The top result is a link to "https://www.binance.com > wallet-direct" titled "Wallet Direct - Binance". A red oval highlights this link. Below it, another result is listed: "https://www.binance.com > blog > How-to-Set-Up-and-... > How to Set Up and Use Trust Wallet for Binance Smart Chain ...". Underneath the results, there's a "People also ask" section with two collapsed dropdowns: "How do I get a Binance chain wallet?" and "What is Binance smart chain wallet?".

Step 4

You Are Ready To Create Your Unique Wallet

Your wallet is totally secure and unique to you.

Now, click on link "**Install Extension Wallet**" and a new page will open.

A screenshot of a web browser displaying the Binance Wallet Direct page at https://www.binance.com/en/wallet-direct. The page title is "Wallet Direct" and it says "Transfer coins or tokens between Binance.com account and Binance Chain Wallet". There are two main buttons: "Verify and connect my address" and "I don't have a wallet, install extension wallet". The second button is circled in red. Below these buttons is a section titled "Connecting Address List" with a table header showing columns for "Address", "network", and "Action". At the bottom of the page are links for "Log In / Register" and a "Feedback" icon. The browser's address bar shows the URL https://addons.mozilla.org/en-US/firefox/addon/binance-chain/.

Address	network	Action

Step 5

Add Your Wallet As An Extension To Firefox

This may sound complex but you are simply adding a visible extension up here

To do this, click on the button "**+Add To Firefox**" and wait for 1 second...

A screenshot of a Firefox browser window showing the "Firefox Browser ADD-ONS" page at https://addons.mozilla.org/en-US/firefox/addon/binance-chain/. The page displays the "Binance Chain Wallet" extension by Binance Chain. The extension has 22,847 users and 106 reviews, with a 4.3-star rating. A red circle highlights the "Add to Firefox" button, which is being clicked by a cursor. A red arrow points from the text above to this button. Below the button, a warning message states: "⚠ This add-on is not actively monitored for security by Mozilla. Make sure you trust it before installing." At the bottom of the page, there are sections for "Rate your experience" and "Screenshots".

A Crypto Wallet for Binance Chain, Binance Smart Chain and Ethereum

Refresh Firefox... X

Step 6

A Permission Window Will Automatically Open

Simply click on the button "**Add**".

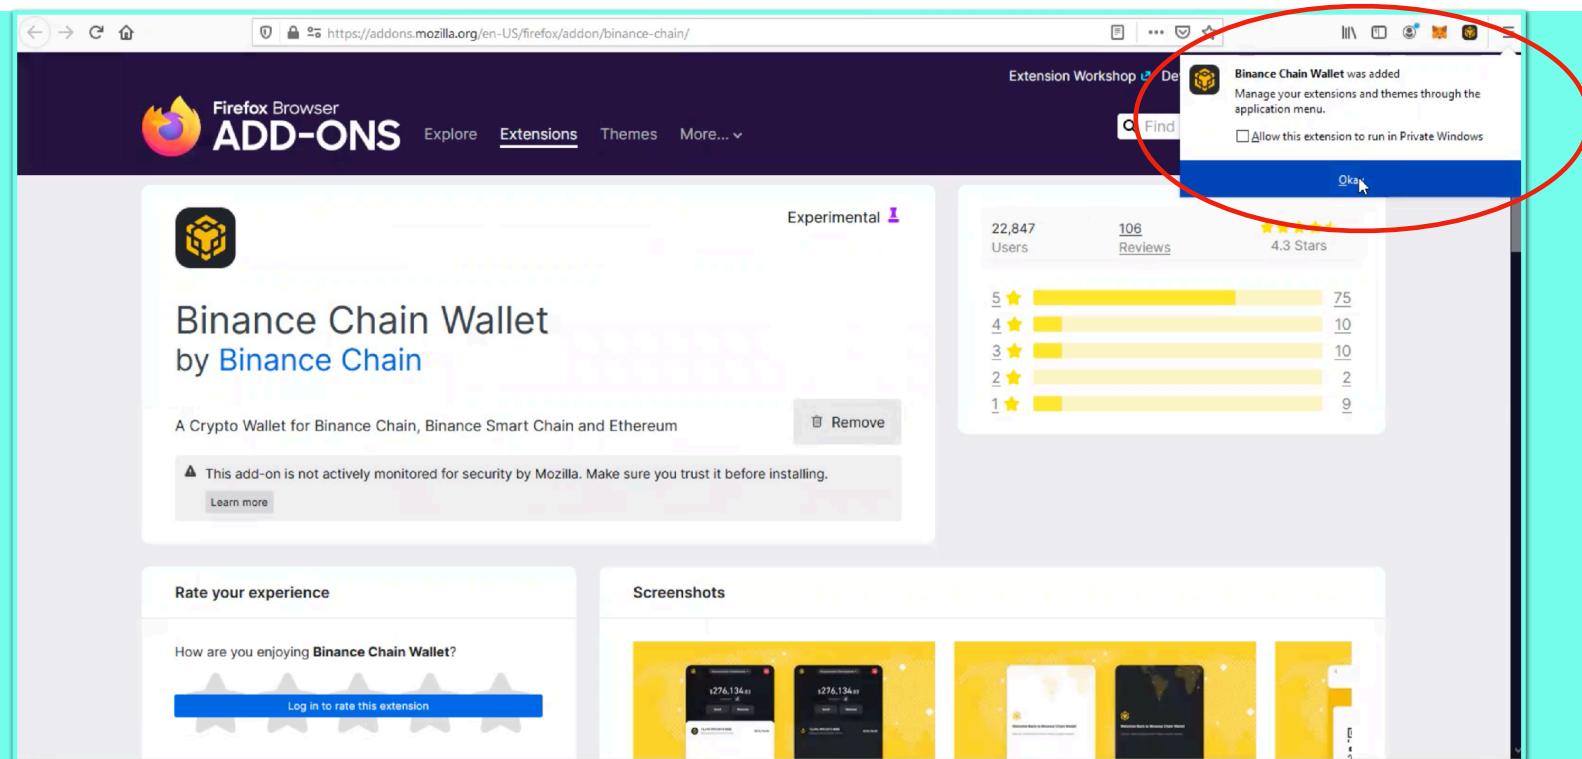

Step 7

Another Permission Window Will Automatically Open

Simply click on "**OK**".

Step 8

You Now Have A Wallet Extension

Click on it to see inside your wallet, then click on "**Create Wallet**".

A screenshot of the Firefox Add-ons page for the Binance Chain Wallet extension. The extension card shows the following details:

- Icon:** A yellow cube icon.
- Name:** Binance Chain Wallet by Binance Chain.
- Description:** A Crypto Wallet for Binance Chain, Binance Smart Chain and Ethereum.
- Rating:** 22,847 users, 5 stars (yellow).
- Buttons:** "Remove" (disabled), "Use Existing Wallet", and "Create Wallet".
- Warning:** "This add-on is not actively monitored for security by Mozilla. Make sure you trust it before installing." with a "Learn more" link.
- Sections:** "Rate your experience" and "Screenshots".

A red arrow points from the text "Click on it to see inside your wallet" to the extension icon in the top right corner of the browser window. Another red circle highlights the "Create Wallet" button.

Step 9

Now Get Your Unique Security Phrases

Click on the button "**Generate Seed Phrases**"...

If this is your first time you will be asked to create a password before accessing your wallet...

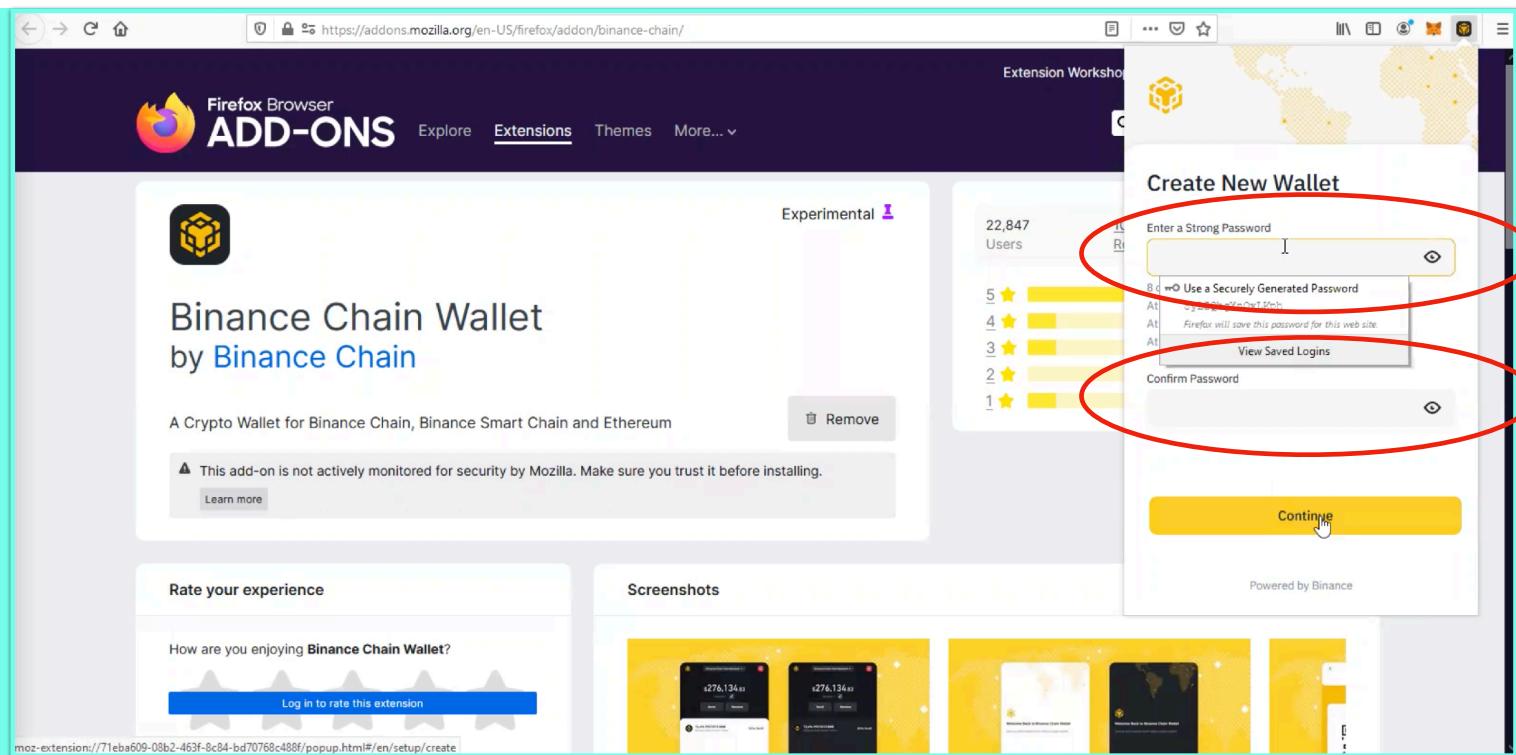

A screenshot of a Firefox browser window showing the "ADD-ONS" page. The URL in the address bar is https://addons.mozilla.org/en-US/firefox/addon/binance-chain/. The main content area displays the "Binance Chain Wallet" extension by Binance Chain. The extension has an icon of a yellow cube, is categorized as "Experimental", and has 22,847 users. A warning message states: "⚠ This add-on is not actively monitored for security by Mozilla. Make sure you trust it before installing." Below this is a "Rate your experience" section with a "Log in to rate this extension" button. To the right of the extension listing is a modal window titled "Create Your New Wallet" with the sub-section "Select Your Preferred Method". A yellow button labeled "Generate Seed Phrase" is highlighted with a red oval and a cursor icon pointing to it. Below the button, there is an "Or" link and a "Continue with tKey via:" section with a Google icon.

Step 10

Create A Strong Password

Enter the same password twice. Both passwords must match. Never share passwords; we will never ask you for it. Then click the "**Continue**" button... this will generate unique security phrases for you.

Step 11

Store Your Security Phrases Generated By Binance

A seed phrase, seed recovery phrase or backup seed phrase is a list of words which store all the information needed to recover your digital assets stored in your binance wallet.

Click the button "**Click to copy**" but you can also take a photo or note them too. Do not lose or share these phrases. We will never ask you to divulge them.

A screenshot of a Firefox browser window showing the Mozilla Add-ons page for the "Binance Chain Wallet" extension. The extension is listed under the "Experimental" category. It has a rating of 5 stars based on 22,847 users. A prominent call-to-action button labeled "Click to copy" is highlighted with a red oval, indicating where the user should click to copy their seed phrase. Below the button, there is a "Get my private key" link. To the right of the button, there is a note about backing up the seed phrase and a list of security tips. At the bottom right of the extension card is a "Continue" button. The page also includes sections for "Rate your experience" and "Screenshots".
